

ADVANTAGES

- Modular concept for all installations
- Holds a variety of bag filters, compact filters (with header frame), prefilters or a combination thereof
- No clamp manipulation optimizes filter change out times
- Rapid installation of the frame

Application	Suitable for commercial and industrial applications
Frame	Stainless steel;Galvanised steel
Comment	<p>The Camfil FastFrame is not intended to be used in applications where headered filters are installed in reverse direction, or with box style filters greater than 100 mm in depth.</p> <p>Mounting frame for Hi-Flo, Opakfil and other bag and compact filters with header frame (HF).</p> <p>Filters without header frames may be used as a prefiltration stage, over the bag or compact filters.</p> <p>The frame can be ordered with or without PU gasket.</p> <p>Material option stainless steel available as 1.4301 or 1.4404</p>
